

# The Top Fifteen Articles

<b>N-Acetyl Cysteine</b> for older dogs, dogs with memory problems, dogs with hind leg problems, cats with kidney impairment or any pet with a need for anti-oxidant benefits. It's a chew or a capsule from Amazon. It's cheap. I recommend it.		
<b>Feeding dogs.</b> The amounts, the kind of dry food I recommend. If you want your dog to be a certain, lower weight this chart is how to accomplish it. EASILY.		
<b>Home cooking for dogs.</b> It's not enough to give chicken and rice. Where's the vitamins? Where's the soluble fiber? This diet is EASY and requires no daily cooking. Raw diet also gets discussed.		
<b>Bones and Antlers and Himmy puffs.</b> All forms of SCRAPEY dental exercise. No: Dentastix, Bully sticks and Greenies are NOT enough. Whatever you do has to SCRAPE the teeth. Know this article.		
<b>Himmy Puffs</b> is exercise for the teeth of small breed dogs and it WORKS because coincident to the fact that small breed dogs will NOT eat bones to scrape their teeth they WILL eat homemade Himmy Puffs. Instructions detailed in this article. DO IT.		
<b>Everything Arthritis,</b> if you're talking glucosamine, aspirin, Painkillers, other supplements and even 'reasons' for old dog lameness, this is the page.		
<b>Organ Disorders,</b> if your pet has kidney disease, pancreatitis, diabetes, hypo thyroidism, liver disease, I'll send you to this page for comprehensive documents you'll appreciate about their conditions.		
<b>Skin and Skin Medications</b> – Cytopoint, Apoquel, Claro, EasOtic, Steroids, Hibiclens, even plain old washcloths. If you've been sent to this page it's because I want you to understand what's being prescribed in detail.		

<b>Diarrhea</b> – Everything from how to feed them, some common causes, treatments, diagnostics, you will be an expert about gastrointestinal upsets in dogs and cats.		
<b>Dog Supplements</b> from NAC to Flintstones, to TRAP Protocol, to natural Liver support and even Cannabis, if this page is suggested, you'll find what I've hash tagged.		
<b>Bugs and Worms and Fleas</b> if it's a parasite you can and should see or know about, here it is. Everything I've got on heartworms, fleas and more.		
<b>Knees and orthopedics.</b> If it's bones, from necks to knees to toes you'll find it here. I've hash tagged what you're looking for.		
<b>CATS</b> from how to put weight on them, get weight off them, treatment for hyperthyroidism, peeing outside the box and more. I'll hashtag why you're being sent to this page.		
<b>Puppies</b> - From training, to bark collars to finding a trainer or groomer. Pretty comprehensive. I'll hashtag what I want you to have from this page.		
<b>Old Dogs</b> is an overview of what you can do for an older dog. Management of arthritis, senility, chronic conditions, etc.
