"My dog won't chew ANYTHING" Well, okay Once upon a time a woman came in with a really old dog with amazing shiny old teeth. "How did you manage that?!" I asked. "LEBA III" She said.		Sold with a dropper and a "spray top" to get it in the dog's mouth. Clients sometimes give a treat and when they open the mouth for the treat they just spritz it in the mouth. Or put the dropper in the cheek. Works well, takes months.	QR to LEBA III
"It's Hard to Pill My Pet!" Often in fact, this is true and you can use these "Delectables" for help. Pill, plus Delectables Bisque in a little food and BOOM.	QR Code to Delectables	Delectables Delectables Success Success Land	Some pets love these so much they'll take a pill mashed up, or just dropped in one. Or mash up the pill in these, and use a syringe. Or poke the pill down, and help it slide down with this.
Home Cook For Your Dog Egg and Whey Protein Sweet Potato Mixed Veggies Vitamins Egg shell	Cooking for your dog is easier than you thought. This diet, plus a beefshank to exercise their teeth, and they're getting the best nutrition you can make.	NTRE EASIEST "	ALL THE HOME COOKING DETAILS
